

TREALES C OF E SCHOOL

I never cease to be amazed at the audacity of Simon Renwick when he regularly appears in the newspaper taking credit for many projects in which he has taken little part. I usually try to ignore his self-promoting newsletters and articles but, on this occasion, I strongly object to his latest proclamation about Treales C of E School. He has caused alarm to many residents, parents and children of the school with his latest newsletter, in which he claims that 90 rural schools, including Treales C of E, could face closure. As a result of this irresponsible letter the Head teacher, Councillor Speak and I have had many calls from distressed and worried parents. May I state quite clearly that there are no plans to shut this excellent school, to the contrary, there are proposals to construct an outdoor classroom with hard paving, safety surfaces and weather shelters, hardly the action of an Education Authority which is proposing closure, so much for being "In Touch".

Liz Oades
County Councillor Fylde East
